

BASIC BLOODSTAIN PATTERN ANALYSIS

COURSE

August 2-6, 2010

Sponsored by:

**Forensic Science Program
Suffolk University**

conducted at

Suffolk University
(On Beautiful Beacon Hill)
Boston, Massachusetts

Basic Bloodstain Pattern Analysis Course:

This 40-hour course will provide the participants with first-hand knowledge of bloodstain pattern analysis. The course is divided into both lecture and laboratory sessions. The theoretical and fundamental principles of the discipline will be illustrated in the lecture segments and then will be reinforced in the laboratory segments with hands on applications. Each student will be afforded the opportunity to learn how blood reacts under known conditions and create reference patterns for future use.

Upon completion of this course, the participants will have acquired a basic understanding of how bloodstain pattern analysis will assist in their investigation of crime scenes where blood has been shed.

This course is well aligned with the recommended 40-hour course curriculum set forth by the International Association of Bloodstain Pattern Analysts and has been designed for investigators, crime scene technicians, forensic scientists, attorneys, and medico-legal investigators.

Course Topics to Include:

- History of Bloodstain Pattern Analysis
- Characteristics of Liquid Blood
- Target Surface Characteristics
- Stain Size, Shape, Distribution
- Impact Angle Considerations
- Establishing Origins of Spatter Patterns
- Stain Patterns resulting from Gravity
- Drip and Splash Patterns
- Projected Blood Patterns
- Impact Spatter Associated with Beatings
- Impact Spatter Associated with Gunshot
- Cast-off Bloodstain Patterns
- Expirated Bloodstain Patterns
- Transfer Patterns
- Altered Bloodstain Patterns
- Sequencing of Patterns
- Bloodstain Patterns on Clothing
- Documentation of Bloodstain Patterns
- Application of Bloodstain Pattern Analysis with Case Examples

The course will be conducted Monday through Friday, 8:00 a.m. – 5:00 p.m. at Suffolk University, Boston, Massachusetts.

Housing Information:

Excellent Residence Hall Rooms
\$72 Single, \$47 Double/night with breakfast
Available July 30 – August 15 checkout

Upon receipt of your registration and payment, you will receive a confirmation letter including a list of items to bring to the course. The course is limited to 24 students. In the event there are insufficient registrations, this course will be canceled.

INSTRUCTOR:

Paul Erwin Kish is a Forensic Consultant. He has been qualified in many courts of law as an expert in bloodstain pattern analysis. Mr. Kish has been consulted on homicide cases in 30 states, the District of Columbia, as well as, in Australia, New Zealand, Canada, Denmark, Iraq, Iceland, and England.

His lecturing has taken him throughout the United States, as well as to Canada, England, The Netherlands, and Sweden. Mr. Kish has educated over 1000 students from 17 countries during 40-hour courses on the topic of bloodstain pattern analysis.

He is currently a Fellow in the American Academy of Forensic Sciences, and a co-author of *“Principles of Bloodstain Pattern Analysis Theory and Practice.”*
